Career Opportunities with Smile Foundation NGO

Do you also believe in the cause of education for all?

Then come join our crusade and embark on a rewarding and satisfying journey with Smile Foundation.

At Smile, "Real Work, Real Change" is our ethos. Working on the ground to bring sustainable change is not easy, but in our country where more than half of the population is deprived even of its basic needs, this is where we must start. Before we debate on human rights, we must address urgent human needs. And this is what Smile Foundation has been tirelessly striving to achieve. Through intensive programmes based on education, healthcare, livelihood and women empowerment, we work towards bringing positive and long lasting change in the lives of children and their families.

People – committed, passionate individuals have always been at the core of all we do. Currently, we have a team of over 400 full-time professionals from diverse backgrounds working across India at our projects and offices.

If you wish to be a part of the change process at the grassroots, and are willing to build a career in the development sector through professional value creation, we will be happy to hear from you.
